G CENTER

The image shows a close-up, low-angle view of a building's interior or entrance. A prominent feature is a curved, white, metallic-looking ceiling element that arches over the space. Two circular recessed lights are embedded in the ceiling, emitting a warm glow. Below the ceiling, a horizontal band of blue and red panels runs across the frame. The word "G CENTER" is visible on the blue section of this band. The background shows a dark, possibly glass-walled area, and a red vertical element is visible on the right side.
